

# **TZJM Team Contract**

**Project:** Crowdsourced Litter Pickup Website

## **Team Members:**

1. Zach Reising - [reisinzs@mail.UC.edu](mailto:reisinzs@mail.UC.edu)
2. Jacob Towne - [townejd@mail.UC.edu](mailto:townejd@mail.UC.edu)
3. Tommy Tuttle - [tuttlett@mail.UC.edu](mailto:tuttlett@mail.UC.edu)
4. Michael Mazzella - [mazzelma@mail.UC.edu](mailto:mazzelma@mail.UC.edu)

## **Meeting Schedule**

We will meet once per week on discord, and we will provide updates in the group chat when needed.

## **Project Focus**

The focus of our project is to design and implement a crowdsourced litter pickup website where community members can mark locations of heavy litter. This data will be shared with volunteer groups and city officials to help prioritize cleanup efforts. This project will combine front-end development, backend management, and user engagement features to support environmental sustainability and civic participation.

## **Roles**

- Zach: Backend and Database developer
- Jacob: UI and backend developer
- Tommy: Blazor, Backend developer
- Michael: UI and frontend Blazor developer
